

HighPoint Solutions Announces New ERP Solution Director

January 19, 2012, East Norriton, PA. HighPoint Solutions (HighPoint), a premier provider of specialized management and IT services dedicated to the life sciences and healthcare industries, announced the hiring of Dinesh Shah to lead the firm's ERP practice. He will be responsible for defining, developing, and managing solution offerings and overseeing project delivery in the Oracle ERP and Fusion space.

"As regulatory and cost pressures continue to strain life sciences companies, implementing efficient and compliant ERP processes, from procure-to-pay to supply chain management and others, will play a significant role in determining the winners and losers of the patent cliff," said Bob Matsuk, Chief Strategy Officer at HighPoint Solutions. "Dinesh will be instrumental in helping our clients with this transition."

Mr. Shah brings over 15 years of ERP implementation experience and over 25 years of full lifecycle IT project experience to his new position at HighPoint. Most recently, he was Senior Program Director at Computer Sciences Corporation, where he was responsible for business development and Oracle practice management in the Northeast region. Mr. Shah has managed small to large complex, global implementations and provided thought leadership in order-to-cash, procure-to-pay, plan-to-make, and financial integration with end-to-end business processes. Mr. Shah has also held management positions with BearingPoint, Ernst & Young, and Oracle.

About HighPoint Solutions
